

MAGNA PRO

Series
For Stone

- **Fast cutting design**
- **Core protection**
- **Core vent holes**
- **Segmented for cooling**
- **Sizes from 4" - 14"**

The Magna Pro Series blades are designed with cutting speed in mind. The turbo segments are made to cut natural stone fast and accurate. Extra cooling holes are added to make sure the blade performs at its best under the toughest conditions, with or without water.
